## Important

1. Product safety standards, labeling, and documentation requirements are subject to frequent changes and interpretation by the customs authorities, market surveillance agencies and marketplaces (e.g. Amazon.com). We cannot guarantee that the information in this report is accurate or up to date.
2. We research relevant product safety standards, labeling, and documentation requirements using official sources (e.g. government websites) and trusted partners, according to our best capacity. That said, this service shall not be seen as an insurance policy.
3. Notice that we don't cover losses due to forced recalls, delays or other situations caused by the importation of non-compliant products. We don't offer qualified legal advice.
